ALARMPANEL

MULTI-FUNCTIONAL IN-CABIN WARNING SYSTEM

The Alarm Panel is an intelligent multi-functional safety system that provides visual and audible alert to the cabin on the status of your vehicle's doors, covers, lockers, tail lifts and steps. Easy to install and set up, it is compatible with Hyphen Tech's wireless magnetic and contact detection sensors. Equipped with a speedometer, the alerts can be conditioned to the accelerations of the vehicle without any connection to the driving means.
