

COMPLIANCE OF HYDRAULIC TIPPERS

Hyphen Tech DPO systems enable your hydraulic tipper to be compliant with French law JORF notice n°0172 of 14 July 2020 (text n°80).

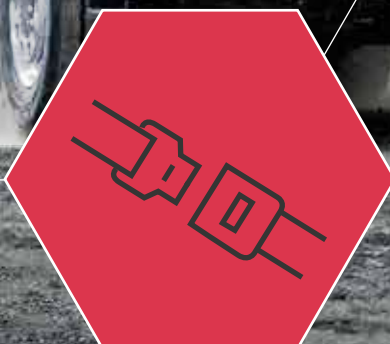

The status of your hydraulic equipment is displayed in the cabin on our compact screens visually and acoustically, on the vehicle's dashboard or directly with a buzzer.

Easy to install, take advantage of Hyphen tech's expertise and wireless technology.

SAFETY

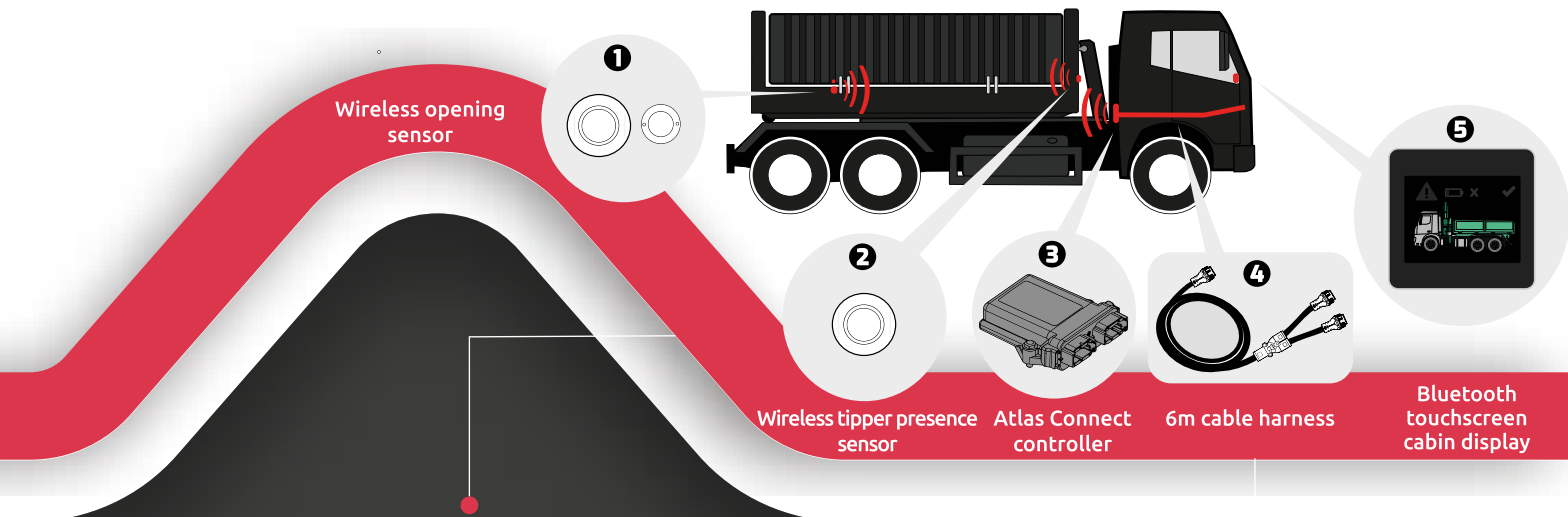

WIRELESS SIDE PANEL OPENING DETECTION SYSTEM FOR DEPOSITABLE SKIPS (DPO auto)

The Hyphen Tech DPO auto system allows you to bring your hydraulic tipper into compliance with French law JORF notice n°0172 of 14 July 2020 (text n°80).

The DPO auto controller can manage 1 or 2 side panels, providing a common buzzer alert and a warning light for the first 2 side panels, as well as a tipper presence indicator on the vehicle (buzzer and warning lights not included).

It can also be connected to the bodybuilder Can bus interface to control alerts and speed limits the vehicle.
