TRAILER INTRUSION SENSOR

Hyphen Tech's safety systems ensure the integrity of your equipment even before entering the vehicle by means of zoning motion detection. Protect your vehicles from intrusion or unwanted action on the fuel tank. Easy to install, enjoy the benefits of Hyphen Tech wireless technology.

MOVDETECT

INTRUDER ALARM

GOODS TRANSPORT

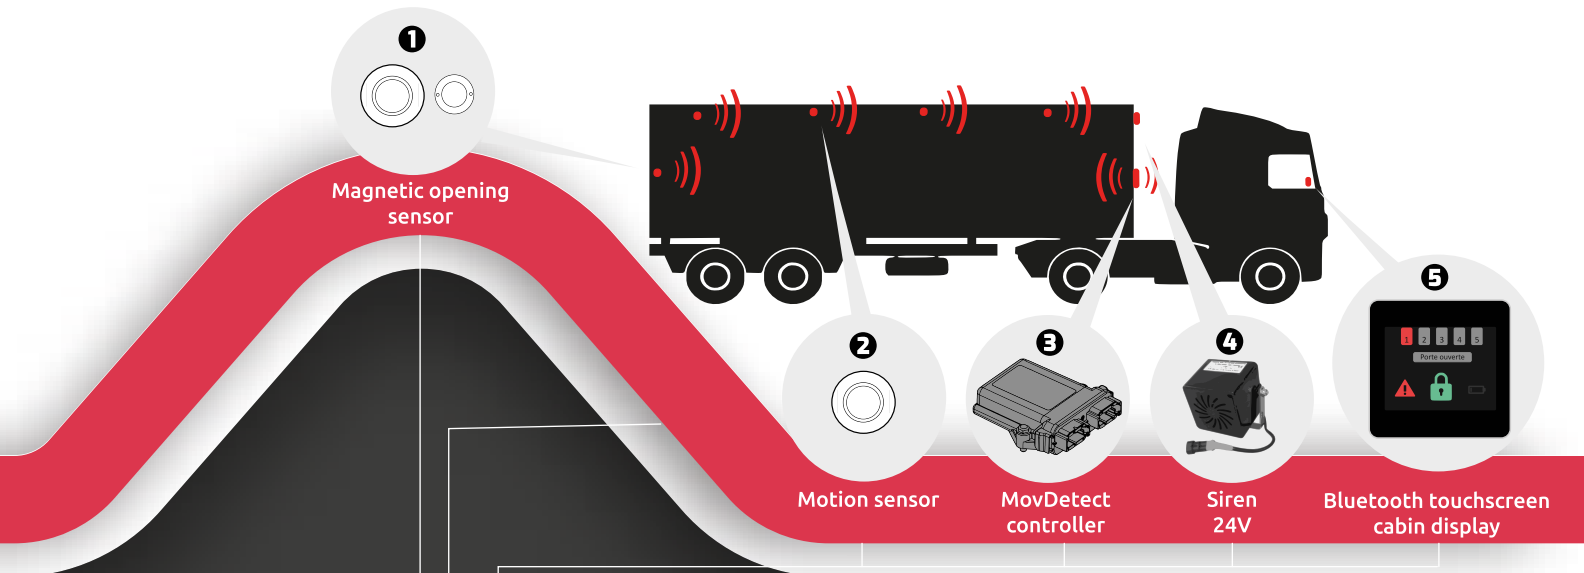

MOVDETECT

INTRUDER ALARM

Intruder alarm system for trailers with in-cabin control screen.

MovDetect can manage up to 4 zones of 3 meters covered by a wireless motion sensor with delay to limit false positives due to a possible moving load. A 5th zone can also be set up for the vehicle's fuel tank.

The optional rear door sensor allows the system to be disabled in the event of a load check.
